**NHRTL President, (603) 626-7950**

## **Parental Notification Becomes Law**

"NHRTL applauds Gov. Craig Benson and the many legislators who courageously passed Parental Notification with HB-763," said NHRTL President Ed Holdgate. Holdgate insisted that "HB-763 limits the marauding, opportunistic abortion industry from unchallenged profiteering off pregnant minors for whom they have no legal responsibility."

Given that HB-763 was barely passed, the pro-life leadership taken by Gov. Benson was crucial. He is earning his pro-life stripes with faithful diligence and NHRTL appreciates such work. Now NH parents will have the "choice" to be involved instead of being circumvented.

We decline to name the many additional HB-763 activists and legislative sponsors because of the probability of missing the gallant efforts of those behind the scenes. Such pro-active pro-lifers know who they are and see the fruit of their election season work and legislative efforts.

Imminent parental notification, the pending federal partial birth abortion ban, and the challenge to Roe v. Wade by a converted pro-life Norma McCorvey (Jane Roe), should put the rabid pro-abortion leaders on notice that their heyday is coming to a close. Indeed, in due time humanity shall categorize abortion on demand alongside crimes like genocide, infanticide, cannibalism, virgin sacrifice, and slavery.

NHRTL applauds HB-763 and thanks all the pro-lifers who help such incremental pro-life steps toward restoring the right to life for all.
