

July 2002

Dear Friends,

Like you, I have been a steadfast supporter of the sanctity of human life for many years. I admire your continued and untiring efforts to defend human life from conception throughout the entire span of life until natural death. I encourage you to continue, as I will.

If I am chosen Governor, I will support a ban on partial-birth abortions and a parental consent law. Further, I support giving citizens the opportunity to express their support for the sanctity of human life by means of a license plate message.

Best regards,

A handwritten signature in blue ink that reads "Gordon Humphrey". The signature is written in a cursive style with a large, looping initial "G".
